

DBMS Lab Assignment-1

Name : Dasari Rishikesh

Roll No. : 19BCS035

Library ER Diagram

- There are 7 tables.
- Every table has primary key.
- The T14_Author is the weak entity in the ER diagram because it has foreign key as primary. And other entities are strong because they have primary keys from their set of attributes.
- T14_Author and T14_Books has the strong relationship.
- Every table is started with the team name i.e T14.
